

RUTURAJ Vitthal BHOI

COMPUTER SCIENCE ENGINEERING · FLUTTER · FULL STACK DEVELOPMENT

PROFILE

Motivated B.Tech Computer Engineering student with hands-on experience in Java, C++, Python, Flutter, Firebase, and SQL, along with core web technologies. Skilled at building end-to-end mobile and web applications, from database design to polished UI, with a strong focus on solving real business problems. A quick learner with sharp problem-solving instincts, eager to bring technical skills into a professional engineering team and grow through industry experience.

PROJECTS

HisabKitab

Jan 2024 – Jun 2024

Flutter · Dart · Firebase · Firestore · SQLite

- ▶ Built a mobile billing and inventory management app that helps small businesses track products, customers, and transactions in one place.
- ▶ Designed a real-time Firestore data layer alongside local SQLite storage for fast, reliable offline access to billing records.
- ▶ Created intuitive Flutter UI flows for adding products, generating bills, and monitoring stock levels, reducing manual bookkeeping effort.

AssignMate

2026

Flutter Developer

- ▶ Developed a student-focused mobile app that lets peers share assignments, class notes, and previous-year question papers in a centralized library.
- ▶ Structured academic resources by subject and semester, making it fast for students to find and download relevant study material.
- ▶ Focused on a clean, distraction-free Flutter interface to encourage consistent use during exam preparation.

Smart Inventory & Recipe Cart

2025

Flutter · Dart · Firebase · Firestore · Gemini API

- ▶ Built an AI-powered grocery management app that suggests missing ingredients based on a chosen recipe, using the Gemini API.
- ▶ Implemented Firestore-backed inventory tracking so users can see current stock and auto-generate shopping cart items.
- ▶ Combined recipe intelligence with cart automation to cut down manual grocery planning and reduce food waste.
